EXPERIENCE

**Great Lakes Consulting Services —
Livonia, Mich.**

Software Developer

January 2019 through present

- Build and maintain a React with Redux front-end of an end-to-end budget forecasting application for Trinity Health
- Use FlatBuffers to serialize and deserialize large amounts of healthcare data
- Display data using flexible, interactive data grids and charts

Logicedrop — Ferndale, Mich.

Software Developer

April 2016 through December 2018

- Built client-facing websites and web apps using the latest front-end frameworks
- Lead developer for the front-end of Logicedrop's Studio Platform
- Worked side-by-side with back-end team to implement Rest APIs with RxJS observables
- Wrote code for importing and exporting Excel spreadsheets and .CSV files and displaying them in an editable data table
- Followed GitLab best practices for version control and continuous integration
- Designed and developed UI wireframes and mockups using Adobe XD

**The Oakland Press (Digital First
Media) — Pontiac, Mich.**

Pagination Hub Editor

August 2011 through January 2016

- Designed, proofed and finalized the print products for eight daily broadsheets plus a handful of weekly Michigan and New York newspapers
